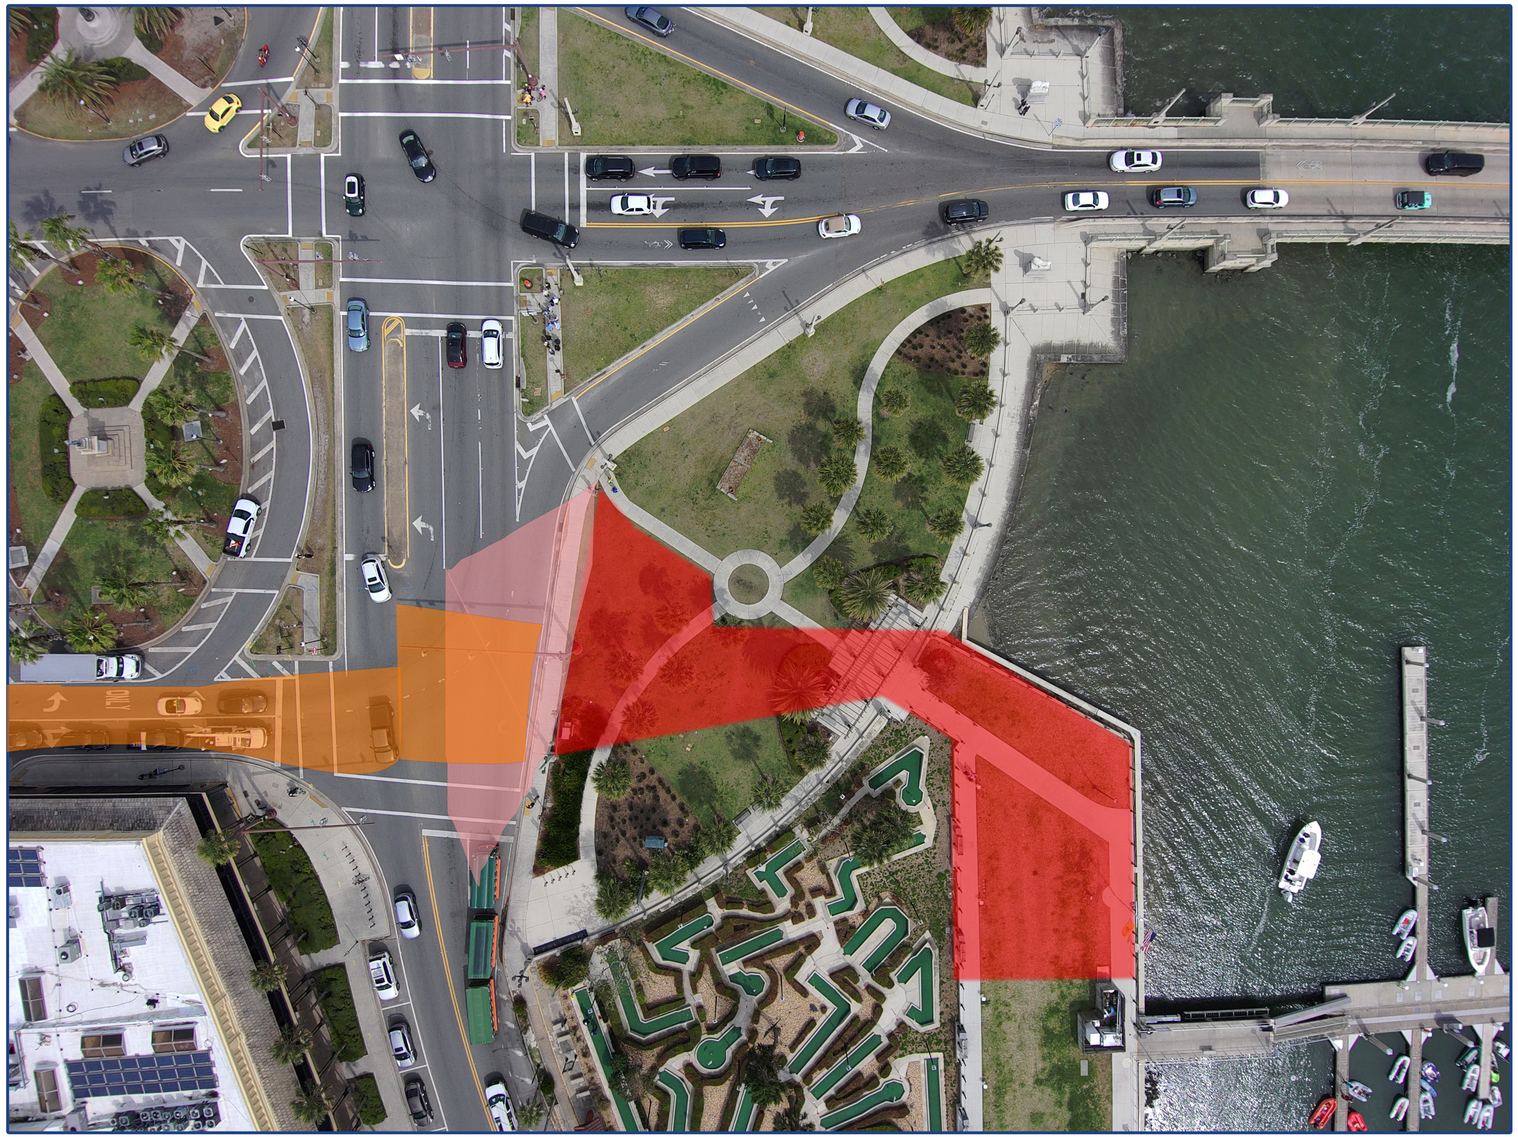
King Street at State Road A1A Drainage Improvement Project FIN 430897-1



Project improvements include:

Replacing and adding up to 60” diameter drainpipe on King Street at Avenida Menendez and up to the Bay Wall.

New concrete masonry wall system, timber pergola, metal and concrete stanchions with guard railing, curb and gutter, sidewalk upgrades, bicycle path, lighting upgrades and asphalt resurfacing.

New landscaping to be installed in the area once the project is completed.

For more information on this drainage project and to view upcoming construction phases and detour maps, please scan the QR code below to connect to the project website.

The majority of the project is within Phase 1. Phases 2 & 3 will be in place for about 2 weeks, weather and unforeseen circumstances permitting.
