\$4 Million

Schedule
Summer 2017

We urge you to participate and invite your comments and questions. You can complete a comment sheet today and drop it in the comment box provided, or take the comment form home, complete and mail it to the FDOT.

WELCOME,

The Florida Department of Transportation (FDOT) welcomes you to tonight's public meeting to discuss proposed improvements to SR-A1A (May Street) in St. Augustine, Florida.

The FDOT is proposing to replace the existing drainage system on May Street from east of San Marco Avenue to the Hospital Creek Bridge.

To construct the drainage pipes located under the roadway, the existing two travel lanes will be shifted to the southern right of way line. Two lanes of traffic will be maintained at all times.
