## Project History

The initial process of data collection and information gathering began with the Kick-off Meeting in February 2016 and a Public Meeting in February 2017. The purpose of these meetings was to provide the public the opportunity to receive information on the project as well as to obtain feedback from the stakeholders within the project corridor. Since that time, FDOT has analyzed the needs, developed feasible alternatives, and is seeking public feedback on the recommended alternative.

### GET INVOLVED

- Complete a comment form and drop it in the comment box provided at tonight's hearing.
- Give an oral statement during tonight's comment period.
- Mail or email your comments to the Project Manager at the address provided in this handout no later than **December 11, 2017**

If you have concerns about access that affects your property or business, please contact the Access Management Review Committee.

## I-295 at US-17

From Collins Road to South  
of Wells Road Intersection

Financial ID: 435575-1

## WELCOME

The Florida Department of Transportation would like to welcome you to the access management public hearing for the proposed widening & reconstruction of US 17 from Collins Road in Duval County to South of Wells Road in Clay County. This public hearing is being held to give interested persons an opportunity to express their views concerning the location, conceptual design, social, economic and environmental effects of the proposed improvements.

## PROJECT INFORMATION

As of November 9, 2017, project documents have been available for your review during normal business hours Orange Park Public Library, 2068 Plainfield Avenue, Orange Park, FL 32073 and the FDOT Urban Office, 2198 Edison Avenue, Jacksonville, FL 32204. Project information will also be available on the project website at:

[www.nflroads.com/295@17](http://www.nflroads.com/295@17)

## PROJECT DESCRIPTION:

To meet study area traffic operation and safety concerns, access management alternatives in the form of intersection operational improvements were developed along US 17 near the Wells Road, Old Orange Park Road, Eldridge Avenue, and the I-295 eastbound and westbound off-ramp intersections. One or more of the following improvements are proposed: the addition of or modification to turn lanes and medians, restriping to accommodate bicycle lanes, improved sidewalk facilities, and I-295 ramp intersection improvements including realignment of the I-295 off-ramps, additional turn lanes, and signal changes.
