The Florida Department of Transportation (FDOT) invites you to attend a public meeting to discuss the proposed improvements to State Road 21.

The FDOT is proposing to mill and resurface SR 21 from the Putnam county line to north of Commercial Circle in Keystone Heights. Portions of this project are in Bradford, Clay and Putnam Counties. In addition to the milling and resurfacing, the Department will be improving the safety of the roadway by widening the paved shoulders, improving the lighting within the Town of Keystone Heights, and adding mid-block crossings and bulb-outs as part of the Town's Streetscape project. Additionally, signal and pedestrian improvements at the intersection with SR-100 are also being proposed.

Public participation is solicited without regard to race, color, national origin, age, sex, religion, disability or family status. Persons who require special accommodations under the Americans with Disabilities Act (ADA) or persons who require translation services (free of charge) should contact Doug Dycus at the number provided to the left, at least seven (7) days before the public meeting.
