ABOUT THE PROJECT

The Florida Department of Transportation (FDOT) proposes converting the current four lanes of traffic on San Juan Avenue (State Road 128) between Roosevelt Boulevard (U.S. 17) and Herschel Street (State Road 211) into three lanes with a center turn lane. The objective of these changes is to reduce left turn and angle crashes at intersections along the corridor. Other proposed work includes installing a crosswalk with pedestrian refuge at San Juan Avenue and Fair Street.

Project documents are currently available for review at nflroads.com/VPH. Persons wishing to submit written statements or other exhibits in place of or in addition to oral statements may do so during the hearing or any time before January 26, 2021 by submitting them via email to Cody.Ko@dot.state.fl.us or via traditional mail to Cody Ko, FDOT Traffic Safety Program Engineer, 2198 Edison Avenue Jacksonville, Florida 32204. All exhibits or statements postmarked on or before January 26, 2021 will become part of the public hearing record.

Public participation is solicited without regard to race, color, national origin, age, sex, religion, disability or family status. Persons who require special accommodations under the Americans with Disabilities Act or who require translation services (free of charge) should contact Samantha Rambeau at (386) 269-3602 at least seven days prior to the hearing.
