Brief Overnight Closures on I-95 North Ramps Next Week

St. Augustine, Fla. – The Florida Department of Transportation (FDOT) will temporarily close the I-95 northbound entrance and exit ramps at State Road 206 next week, weather and schedule permitting.

These brief overnight rolling closures will allow crews to safely mill and resurface the right lane of I-95 northbound within the project area. Electronic message boards will alert drivers of the closure. Drivers are encouraged to use FL511.com and plan ahead.

State Road 206:

The I-95 northbound State Road 206 entrance and exit ramps are expected to be closed for approximately four hours between 7 p.m. and 7 a.m. Sunday, June 28 and Monday, June 29.

As shown in the map below, drivers attempting to exit from I-95 northbound onto State Road 206 will be detoured north to the State Road 207 exit onto I-95 southbound, where they can exit onto State Road 206.

Drivers attempting to enter I-95 northbound from State Road 206 will be detoured onto I-95 southbound to the U.S. 1 exit, where they can access I-95 northbound.

The work is part of FDOT's I-95 resurfacing project in St. Johns County, which consists of milling and resurfacing both directions of I-95 from the Flagler County line to just south of State Road 207, including the interstate entrance and exit ramps for State Road 206 and U.S. 1.

Hubbard Construction is expected to complete the \$22.6 million project in fall 2022, weather and schedule permitting.
