Brief Overnight Closure Planned for I-95 Northbound Ramp on State Road 16 Next Week

ST. AUGUSTINE, Fla. – As part of the Florida Department of Transportation's (FDOT) resurfacing improvements on I-95 from State Road 207 to International Golf Parkway, the I-95 northbound entrance ramp on State Road 16 will be closed Thursday, February 17 from 8 p.m. to 6 a.m., weather and schedule permitting. This brief overnight closure will allow crews to safely place a drainage pipe across the ramp within the project limits.

Drivers attempting to enter I-95 northbound from State Road 16 will be detoured via I-95 southbound to State Road 207 (Exit 311), where they can access I-95 northbound (map below).

Anderson Columbia Co., Inc. is expected to complete the \$30.2 million improvements by fall 2023. Construction completion dates are fluid and subject to change based on weather and schedule permitting.

February is "hit-and-run" awareness month in Florida. When you flee the scene of a crash, you are breaking the law, which carries serious consequences. FDOT reminds motorists to take responsibility and stay at the scene of a crash.

Stay informed about lane closures and roadwork in your area by following FDOT District 2 at [@MyFDOT_NEFL](https://twitter.com/MyFDOT_NEFL) on Twitter or at [MyFDOTNEFL](https://www.facebook.com/MyFDOTNEFL) on Facebook.

Improve Safety, Enhance Mobility, Inspire Innovation

The Florida Department of Transportation's mission is to provide a safe transportation system that ensures the mobility of people and goods, enhances economic prosperity, and preserves the quality of the state's environment and communities. The department is committed to building a transportation system that not only fits the current needs of Florida's residents and visitors, but also enhances mobility throughout the state to accommodate its consistent and rapid growth. The unique nature of the Sunshine State and its year-round warm climate provides numerous opportunities to achieve the department's mission through multiple transportation modes including highways/streets, air, rail, sea, spaceports, transit, and the ever-expanding deployment of bicycle & pedestrian facilities.
