CORRECTION: I-10 Resurfacing from Chaffee Road to I-295 to Begin in Late April

Resurfacing on I-10 from First Coast Expressway to Nassau County line to begin later this spring

JACKSONVILLE, Fla. – Crews will begin resurfacing I-10 from Chaffee Road to I-295 in late April as the Florida Department of Transportation (FDOT) is prioritizing the corridor to improve conditions.

The resurfacing project will improve roadway conditions, smoothing uneven surfaces and promote safety through enhanced lane markings. Additionally, motorists will experience a more comfortable drive, reduced roadway noise and a more durable roadway for years to come. The project will also include updated highway signage, improved drainage and other incidental construction.

Throughout construction drivers will experience lane closures and see a lowered speed limit to promote safety through the construction zone.

Anderson Columbia Co. Inc, was awarded the \$26 million project and is expected to complete the project in mid-2025, weather and unforeseen circumstances permitting.

A future project to resurface I-10 between the Nassau County line and the First Coast Expressway (SR 23) is expected to begin in late spring. A separate press release will be distributed at that time.

Stay informed about lane closures and roadwork in your area by following FDOT District 2 at [@MyFDOT_NEFL](https://twitter.com/MyFDOT_NEFL) on X (formerly Twitter), at [MyFDOTNEFL](https://www.facebook.com/MyFDOTNEFL) on Facebook or by visiting [nflroads.com](https://www.nflroads.com).

The Florida Department of Transportation's mission is to provide a safe transportation system that ensures the mobility of people and goods, enhances economic prosperity, and preserves the quality of the state's environment and communities. The department is committed to building a transportation system that not only fits the current needs of Florida's residents and visitors, but also enhances mobility throughout the state to accommodate its consistent and rapid growth. The unique nature of the Sunshine State and its year-round warm climate provides numerous opportunities to achieve the department's mission through multiple transportation modes including highways/streets, air, rail, sea, spaceports, transit, and the ever-expanding deployment of bicycle & pedestrian facilities.
