Closure and Detour of northbound U.S. 301 to eastbound I-10 Ramp Planned Night of Feb. 18

BALDWIN, Fla. – As part of the I-10 and U.S. 301 interchange improvement project, the ramp for traffic from northbound U.S. 301 to eastbound I-10 will close the night of Sunday, Feb. 18 between 9 p.m. and 5 a.m. the following morning, weather and unforeseen circumstances permitting. The closure will be in place to allow for resurfacing operations of the ramp.

The following detour will be in place during the overnight closure:

Northbound U.S. 301 detour: Traffic will continue north to U.S. 90, travel east on U.S. 90, turn left to travel south on SR 23 and take the exit ramp to access the service road to eastbound I-10.

Superior Construction Company began the \$65 million interchange improvement project in February 2016 and is estimated to complete the work early 2024, weather and schedule permitting.

The Florida Department of Transportation's mission is to provide a safe transportation system that ensures the mobility of people and goods, enhances economic prosperity, and preserves the quality of the state's environment and communities. The department is committed to building a transportation system that not only fits the current needs of Florida's residents and visitors, but also enhances mobility throughout the state to accommodate its consistent and rapid growth. The unique nature of the Sunshine State and its year-round warm climate provides numerous opportunities to achieve the department's mission through multiple transportation modes including highways/streets, air, rail, sea, spaceports, transit, and the ever-expanding deployment of bicycle & pedestrian facilities.
