Detours on Edgewood Avenue at College/Falmouth Streets Planned Until Early September

JACKSONVILLE, Fla. – Detours will be in place on Edgewood Avenue at the intersection with College Street and Falmouth Street beginning Wednesday, July 24 through early September for construction operations, weather and unforeseen circumstances permitting.

Detours will be utilized during construction of the roundabout and other concrete elements of the intersection. Once implemented, detours will be continuous until roundabout construction is completed, expected by early September.

Other project work includes improvements to sidewalks, striping, curbs and the elimination of the traffic signals at the intersection, which will improve traffic flow. Businesses in the area will be open and accessible throughout construction.

During the closures, drivers will be directed through the detour and should use additional caution in the area.

Superior Construction was awarded the contract to complete this \$7.66 million project in fall 2024, weather and unforeseen circumstances permitting.
