Detours for traffic signal work on State Road 207 Rail to Trail project from Hastings to Spuds

Putnam County – As part of the Florida Department of Transportation’s State Road 207 Rail to Trail construction project connecting Putnam and St. Johns county trails, north and south detours will be in place on State Road 207 at County Road 13 Sunday, May 13 from 9 p.m. to 5 a.m., to complete traffic signal work.

Northbound State Road 207 traffic will be detoured to Old State Road 207.

Southbound traffic will be detoured south on County Road 13 to the inside northbound lane utilizing the asphalt cross over. Once clear of the work zone, southbound traffic will then be diverted back to the southbound lanes via the asphalt cross over.

State Road 207 Rail Trail multi-use path project from Hastings to Spuds construction includes a bike/path crossing across State Road 207 with a HAWK (High-Intensity Activated CrossWalk) pedestrian crossing signal, traffic signals, lighting, and drainage north of State Road 206.

Morrison-Cobalt JV began the \$5.8 million project in August 2017 and is scheduled to complete the work by late fall 2018.

For more information regarding construction projects, please visit www.nflroads.com or contact FDOT personnel at 904-831-FDOT.
