Brief Overnight Closures on I-95 South Ramps Next Week

St. Augustine, Fla. – The Florida Department of Transportation (FDOT) will temporarily close the entrance and exit ramps at State Road 206, the I-95 southbound rest area (mile marker 303) and U.S. 1 over the next week, weather and schedule permitting.

These brief overnight rolling closures will allow crews to safely mill and resurface the right lane of I-95 southbound within the project area. Electronic message boards will alert drivers of the closure. Drivers are encouraged to use FL511.com and plan ahead.

State Road 206:

The I-95 southbound State Road 206 entrance and exit ramps are expected to be closed for approximately four hours between 7 p.m. and 7 a.m. Sunday, June 7 and Monday, June 8.

As shown in the map below, drivers attempting to exit from I-95 southbound onto State Road 206 will be detoured south to the U.S. 1 exit onto I-95 northbound, where they can exit onto State Road 206.

Drivers attempting to enter I-95 southbound from State Road 206 will be detoured onto I-95 northbound to the SR 207 exit, where they can access I-95 southbound.

I-95 Southbound Rest Area:

The ramps to the I-95 southbound rest area south of State Road 206 (mile marker 303) is expected to be temporarily closed for approximately four hours between 7 p.m. and 7 a.m. Monday, June 8 and Tuesday, June 9. The next rest area is located 76 miles south of the closure at mile marker 227.

KEVIN J. THIBAUT, P.E.
SECRETARY

U.S. 1:

The I-95 southbound U.S. 1 entrance and exit ramps are expected to be temporarily closed for approximately four hours between 7 p.m. and 7 a.m. Wednesday, June 10 and Thursday, June 11.

As shown in the map below, drivers attempting to exit I-95 southbound at U.S. 1 will be detoured south to Matanzas Woods Parkway to I-95 northbound, where they can exit onto U.S. 1.

Drivers attempting to enter I-95 southbound from U.S. 1 will be detoured onto I-95 northbound to State Road 206, where they can access I-95 southbound.

The work is part of FDOT's I-95 resurfacing project in St. Johns County, which consists of milling and resurfacing both directions of I-95 from the Flagler County line to just south of State Road 207, including the interstate entrance and exit ramps for State Road 206 and U.S. 1.

Hubbard Construction is expected to complete the \$22.6 million project in fall 2022, weather and schedule permitting.
