FDOT Scheduled to Begin S.R. 100 Resurfacing Improvements in February

PALATKA, Fla. – The Florida Department of Transportation is scheduled to begin a resurfacing improvement project on State Road 100 (map below) from the St. Johns Water Management District (SJWMD) to U.S. 17 in early February, weather and schedule permitting.

The resurfacing improvements are part of routine maintenance work. This work will include drainage improvements, box culvert replacement, shoulder gutter installation, highway signing, guardrail, milling and paving the roadway, striping and other incidental construction work items. Lane closures will not be allowed Monday through Friday from 6:30 a.m. to 8:30 a.m.

Halifax Paving, Inc. is expected to complete the \$3.4 million resurfacing project by late 2022. Construction completion dates are fluid and subject to change based on weather and schedule permitting.

January is Move Over month in Florida. FDOT reminds motorists to move over for first responders or service vehicles displaying any visible signals while stopped on the roadside, including Road Rangers, sanitation vehicles and tow trucks.

Stay informed about lane closures and roadwork in your area by following FDOT District 2 at [@MyFDOT_NEFL](https://twitter.com/MyFDOT_NEFL) on Twitter or at [MyFDOTNEFL](https://www.facebook.com/MyFDOTNEFL) on Facebook.

Improve Safety, Enhance Mobility, Inspire Innovation

The Florida Department of Transportation's mission is to provide a safe transportation system that ensures the mobility of people and goods, enhances economic prosperity, and preserves the quality of the state's environment and communities. The department is committed to building a transportation system that not only fits the current needs of Florida's residents and visitors, but also enhances mobility throughout the state to accommodate its consistent and rapid growth. The unique nature of the Sunshine State and its year-round warm climate provides numerous opportunities to achieve the department's mission through multiple transportation modes including highways/streets, air, rail, sea, spaceports, transit, and the ever-expanding deployment of bicycle & pedestrian facilities.
