Lane Closures, Intermittent Detours of I-95 South at CR 214 Planned Friday and Saturday Night for Overhead Beam Replacement

ST. AUGUSTINE, Fla. – As part of an emergency construction contract to replace the County Road 214 overpass beam at I-95 southbound, motorists can expect lane closures and detours in the area throughout the upcoming weekend for demolition, beam installation, and deck construction.

On the nights of Friday, Jan. 20 and Saturday, Jan. 21, starting at 8 p.m., motorists can expect a single lane closure on I-95 southbound at CR 214. At 10 p.m., crews will implement a double lane closure on I-95 southbound at CR 214. From 11 p.m. to 5 a.m., I-95 southbound will be closed at State Road 16, with drivers being detoured via SR 16 east to U.S. 1 south to SR 207 south to reconnect with I-95 southbound (map below).

On CR 214, one-lane, two-way traffic over I-95 will be maintained throughout construction. Nightly detours of CR 214 will be permitted between 9 p.m. and 6 a.m.

Superior Construction Company Southeast, LLC was awarded the \$1.15 million contract to repair damage to the CR 214 overpass over southbound I-95, which occurred Dec. 7 when a dump truck's elevated bed struck the overpass. Completion of the work is expected in February 2023, weather and unforeseen circumstances permitting.

Stay informed about lane closures and roadwork in your area by following FDOT District 2 at [@MyFDOT_NEFL](https://twitter.com/MyFDOT_NEFL) on Twitter or at [MyFDOTNEFL](https://www.facebook.com/MyFDOTNEFL) on Facebook.

The Florida Department of Transportation's mission is to provide a safe transportation system that ensures the mobility of people and goods, enhances economic prosperity, and preserves the quality of the state's environment and communities. The department is committed to building a transportation system that not only fits the current needs of Florida's residents and visitors, but also enhances mobility throughout the state to accommodate its consistent and rapid growth. The unique nature of the Sunshine State and its year-round warm climate provides numerous opportunities to achieve the department's mission through multiple transportation modes including highways/streets, air, rail, sea, spaceports, transit, and the ever-expanding deployment of bicycle & pedestrian facilities.
