### **Multiple Overnight and Daytime Lane and Ramp Closures Planned for Southside Connector Sunday through Friday**

**JACKSONVILLE, Fla.** – Lanes and ramps on the Southside Connector (State Road 113) from I-295 to Atlantic Boulevard/Arlington Expressway (State Road 115), including the Merrill Road (State Road 116) and Regency Square Boulevard North interchanges, will be closed at various times during the day and night Sunday, March 13 through Friday, March 18. The closures, weather and unforeseen circumstances permitting, are needed to facilitate paving activities related to the Southside Connector resurfacing project.

Signage and digital message boards will direct motorists through the closures and detours.

March is bicycle safety month. When cycling always wear a helmet and ride in the same direction of traffic on the street. Obey all traffic signs, signals, and markings.

Stay informed about lane closures and roadwork in your area by following FDOT District 2 at @MyFDOT\_NEFL on Twitter or at MyFDOTNEFL on Facebook.

The Florida Department of Transportation's mission is to provide a safe transportation system that ensures the mobility of people and goods, enhances economic prosperity, and preserves the quality of the state's environment and communities. The department is committed to building a transportation system that not only fits the current needs of Florida's residents and visitors, but also enhances mobility throughout the state to accommodate its consistent and rapid growth. The unique nature of the Sunshine State and its year-round warm climate provides numerous opportunities to achieve the department's mission through multiple transportation modes including highways/streets, air, rail, sea, spaceports, transit, and the ever-expanding deployment of bicycle & pedestrian facilities.
