Nighttime Detour Planned for I-10 Eastbound Lanes at U.S. 301 Exit for Roadway Work December 12

JACKSONVILLE, Fla. – As part of the I-10 and U.S. 301 interchange improvement project, I-10 eastbound will be closed to traffic at the U.S. 301 interchange Sunday, December 12 from 9 p.m. to 5 a.m., weather and schedule permitting. The closure is necessary to complete asphalt repair work.

Drivers will detour to U.S. 301 (Exit 343) and use the I-10 eastbound entrance ramp to continue to east on I-10 (map below).

Superior Construction Company began the \$65 million interchange improvement project in late February 2016 and is estimated to complete the work in summer 2023. Construction completion estimates are fluid and subject to change, weather and schedule permitting.

Safe travels during the holidays will help ensure a happy holiday for you and your loved ones. Be sure to buckle up, don't drive distracted, and designate a sober driver.

Stay informed about lane closures and roadwork in your area by following FDOT District 2 at [@MyFDOT_NEFL](https://twitter.com/MyFDOT_NEFL) on Twitter or at [MyFDOTNEFL](https://www.facebook.com/MyFDOTNEFL) on Facebook.

Improve Safety, Enhance Mobility, Inspire Innovation

The Florida Department of Transportation's mission is to provide a safe transportation system that ensures the mobility of people and goods, enhances economic prosperity, and preserves the quality of the state's environment and communities. The department is committed to building a transportation system that not only fits the current needs of Florida's residents and visitors, but also enhances mobility throughout the state to accommodate its consistent and rapid growth. The unique nature of the Sunshine State and its year-round warm climate provides numerous opportunities to achieve the department's mission through multiple transportation modes including highways/streets, air, rail, sea, spaceports, transit, and the ever-expanding deployment of bicycle & pedestrian facilities.
