Detour Planned for I-95 North at the Fuller Warren Bridge

Jacksonville, Fla. – As part of the Florida Department of Transportation’s 1-10/I-95 Operational Improvements project, I-95 northbound will be detoured September 13-14 from 10:30 p.m. to 5:30 a.m. as crews place beams on the I-95 northbound to I-10 westbound ramp.

I-95 Northbound: Drivers will be detoured to the downtown exit ramps and onto the Acosta Bridge. From the Acosta Bridge, traffic will take a right onto Broad Street and then a left onto Adams Street where traffic can travel north on I-95 or west on I-10.

I-10 Westbound/I-95 Northbound Alternate: Drivers will be detoured to the downtown exit ramps and onto the Acosta Bridge. From the Acosta Bridge traffic, will take a left on Riverside Avenue and then a left onto Forest Street where traffic can take I-10 westbound or I-95 northbound.

Law enforcement officers will be on site to ensure the safety of drivers and construction crews.

FDOT hired Archer Western as the contractor to complete this project for \$126 million with completion anticipated in summer 2020, depending on weather, holidays and unforeseen circumstances.
