FDOT to host open house for the I-95 Overland landscaping project

Jacksonville – The Florida Department of Transportation (FDOT) is hosting an open house to gather feedback from the community for proposed landscaping of the Overland project.

The open house is Thursday, July 13, from 4:30-6:30 p.m. at the FDOT's Training Center Building, 2198 Edison Avenue, Jacksonville, Florida 32204.

Those interested can drop by anytime between 4:30-6:30 p.m. to learn more about the landscaping project and provide feedback to FDOT staff and project design consultants who will be available to answer questions regarding the proposed project. The open house will be an informal event with conceptual landscape plans available. No presentations will be made. To provide comments electronically, send an email to: Jan.Herbst@dot.state.fl.us by Friday, July 21, 2017.

The landscaping project will include plantings of numerous species of trees and shrubs, irrigation and other incidental work relating to the overall landscape for the downtown Interstate 95 corridor. Construction is not expected to start until summer 2019.

The proposed landscaping project has been developed through District Two's FDOTree program, a new initiative developed to promote communication and delivery of the Florida Department of Transportation's Northeast Florida landscaping program.
