Overnight Detour Planned for I-95 North to I-10 West Ramp

Jacksonville - As part of the Florida Department of Transportation's (FDOT) I-10/I-95 Operational Improvements project, the I-95 north to I-10 west ramp will be closed and traffic detoured as crews prepare the ramp for widening. The detour will be in place Friday and Saturday, July 19-20, from 10:30 p.m. to 5:30 a.m. the following day.

Traveling on I-95 north to I-10 west:

Motorists wanting to connect to I-10 west will take the Park Street exit on I-95 north off the Fuller Warren Bridge. At the bottom of the ramp, they will make a right turn onto Park Street north toward Forest Street, where they will make a left turn onto Forest Street west and connect to the I-10 west ramp. (See map below.)

Alternate route for truckers:

Truckers traveling north on I-95 who wish to take I-10 west are advised to take an alternate route by using the I-295 West Beltway towards Orange Park and use the I-10/I-295 West Beltway interchange.

FDOT hired Archer Western as the contractor to complete this project for \$126 million with completion anticipated in summer 2020, depending on weather, holidays and unforeseen circumstances.
