Overnight Detours Planned Next Week at the State Road 207 Ramps to and from I-95

ST. AUGUSTINE, Fla. – As part of resurfacing improvements on I-95 from State Road 207 to International Golf Parkway, closures of the State Road 207 ramps to and from I-95 are necessary for paving work to be completed. The ramp closures are scheduled overnight Sunday, June 9 through Thursday, June 13 between 8 p.m. and 6 a.m. The closures will vary through the week based on paving production. The detour routes are listed below.

- **State Road 207 ramp to I-95 South:** During the closure, drivers on State Road 207 seeking to access I-95 South will use I-95 North and exit at State Road 16 to access I-95 South.
- **State Road 207 ramp to I-95 North:** During the closure, drivers on State Road 207 seeking to access I-95 North will use I-95 South and exit at State Road 206 to access I-95 North.
- **State Road 207 exit ramp from I-95 North:** During the closure, drivers on I-95 North seeking to access State Road 207 will instead exit at State Road 16 to I-95 South to access State Road 207.
- **State Road 207 exit ramp from I-95 South:** During the closure, drivers on I-95 South seeking to access State Road 207 will instead exit at State Road 206 to I-95 North to access State Road 207.

Drivers are encouraged to use caution in the area and follow posted detour signs at these times. Anderson Columbia Co. Inc. is estimated to complete the \$31 million resurfacing improvements by early 2025, weather and unforeseen circumstances permitting.

The Florida Department of Transportation's mission is to provide a safe transportation system that ensures the mobility of people and goods, enhances economic prosperity, and preserves the quality of the state's environment and communities. The department is committed to building a transportation system that not only fits the current needs of Florida's residents and visitors, but also enhances mobility throughout the state to accommodate its consistent and rapid growth. The unique nature of the Sunshine State and its year-round warm climate provides numerous opportunities to achieve the department's mission through multiple transportation modes including highways/streets, air, rail, sea, spaceports, transit, and the ever-expanding deployment of bicycle & pedestrian facilities.
