Overnight Detours Planned Next Week for Martin Luther King Jr. Parkway (SR 115) ITS Improvements

JACKSONVILLE, Fla. – As part of the Martin Luther King Jr. Parkway Intelligent Transportation System (ITS) improvements project on Martin Luther King Jr. Parkway (State Road 115) from Boulevard Street to Beach Boulevard, overnight detours are scheduled Tuesday, April 23 through Thursday, April 25 for installation of CCTV poles.

MLK Parkway Northbound On-Ramp from University Boulevard Detour

The Martin Luther King Jr. Parkway on-ramp from University Boulevard will close nightly starting Tuesday, April 23 through Thursday, April 25 between 8 p.m. and 6 a.m. the following morning.

As a detour, drivers will continue north on University Boulevard and turn left onto the westbound MLK Parkway on-ramp.

Eastbound Beach Boulevard at East Road Detour

Eastbound lanes of Beach Boulevard will close nightly starting Monday, April 23 through Thursday, April 25 between 8 p.m. and 6 a.m. the following morning.

As a detour, drivers will take Beach Boulevard eastbound, exit to East Road, turn left onto Parental Home Road and turn right onto Beach Boulevard.

Chinchor Electric began the \$7.9 million Intelligent Transportation System (ITS) improvements in September 2023 and is estimated to complete the work by early 2025, weather and unforeseen circumstances permitting.

The Florida Department of Transportation's mission is to provide a safe transportation system that ensures the mobility of people and goods, enhances economic prosperity, and preserves the quality of the state's environment and communities. The department is committed to building a transportation system that not only fits the current needs of Florida's residents and visitors, but also enhances mobility throughout the state to accommodate its consistent and rapid growth. The unique nature of the Sunshine State and its year-round warm climate provides numerous opportunities to achieve the department's mission through multiple transportation modes including highways/streets, air, rail, sea, spaceports, transit, and the ever-expanding deployment of bicycle & pedestrian facilities.
