### **Overnight Work Planned Tuesday to Address Paint Spill on Southbound I-95 between Downtown Jacksonville and CR 210**

**JACKSONVILLE, Fla.** – Drivers on southbound I-95 between the Acosta Bridge in Jacksonville and CR 210 in St. Johns County will see overnight slowdowns due to a moving operation to remove spilled paint from the roadway.

Officials with Acme Barricades have agreed to have their crews perform the paint removal procedure on southbound I-95. Crews will perform hydroblasting on the concrete portions of the roadway to remove the material and spray a compound over the asphalt components to treat and conceal the spilled paint.

The procedure is expected to begin tonight, Tuesday, Sept. 12 at 11 p.m. and conclude no later than 5 a.m. Wednesday, Sept. 13, weather and unforeseen circumstances permitting. Should additional treatments to the roadway be necessary, crews will resume work at 11 p.m. Wednesday, Sept. 13.

Motorists are encouraged to use caution when approaching the work zone, safely pass the operation and continue their journey.

Drivers should stay alert and adhere to traffic laws when encountering unexpected road conditions, such as paint spillage or debris on the roadway. This incident serves as a reminder of the importance of proper load security and vehicle maintenance before entering the roadway.

The Florida Department of Transportation's mission is to provide a safe transportation system that ensures the mobility of people and goods, enhances economic prosperity, and preserves the quality of the state's environment and communities. The department is committed to building a transportation system that not only fits the current needs of Florida's residents and visitors, but also enhances mobility throughout the state to accommodate its consistent and rapid growth. The unique nature of the Sunshine State and its year-round warm climate provides numerous opportunities to achieve the department's mission through multiple transportation modes including highways/streets, air, rail, sea, spaceports, transit, and the ever-expanding deployment of bicycle & pedestrian facilities.
