### **Repairs to the I-95 South Bridge Over Hendricks Avenue to Begin Next Week**

**JACKSONVILLE, Fla.** – Repairs on the I-95 south collector/distributor bridge over Hendricks Avenue are scheduled to begin Sunday, March 19 and continue until late April 2022, weather and unforeseen circumstances permitting.

FDOT determined repairs are necessary after inspecting damage sustained when an over-height vehicle struck the bridge earlier this month. Repairs will consist of removing and replacing two support beams, making minor repairs to three support beams and replacing a portion of the bridge deck.

Traffic will be maintained in accordance with FDOT standards. Drivers on the I-95 south collector/distributor can expect continuous, multiple-lane closures throughout the duration of the repairs. Periodic, overnight detours of the Acosta Bridge, the Main Street Bridge and Hendricks Avenue will also be required. Dates, times and details of the detours will be announced as they are scheduled. Drivers in the area may see congestion during peak hours.

March is bicycle safety month. When cycling always wear a helmet and ride in the same direction of traffic on the street. Obey all traffic signs, signals, and markings.

Drivers seeking real-time traffic alerts are encouraged to visit [www.FL511.com](http://www.FL511.com) or download the FL511 app prior to their journey.

Stay informed about lane closures and roadwork in your area by following FDOT District 2 at [@MyFDOT\\_NEFL](https://twitter.com/MyFDOT_NEFL) on Twitter, at [MyFDOTNEFL](https://www.facebook.com/MyFDOTNEFL) on Facebook or by visiting [nflroads.com](http://nflroads.com).

The Florida Department of Transportation's mission is to provide a safe transportation system that ensures the mobility of people and goods, enhances economic prosperity, and preserves the quality of the state's environment and communities. The department is committed to building a transportation system that not only fits the current needs of Florida's residents and visitors, but also enhances mobility throughout the state to accommodate its consistent and rapid growth. The unique nature of the Sunshine State and its year-round warm climate provides numerous opportunities to achieve the department's mission through multiple transportation modes including highways/streets, air, rail, sea, spaceports, transit, and the ever-expanding deployment of bicycle & pedestrian facilities.
