Resurfacing Project Begins on State Road 21 from State Road 16 to Commercial Circle

CLAY COUNTY, Fla. – Work has begun on a resurfacing project on State Road 21 (Blanding Boulevard) between State Road 16 and Commercial Circle in Keystone Heights.

Anderson Columbia Company, Inc. was selected to complete the \$13.4 million project, which involves milling and resurfacing approximately 16 miles of roadway, addition of a center turn lane near Gold Head Branch State Park, drainage improvements and other incidental construction. The project is expected to be completed in fall 2023, weather and unforeseen circumstances permitting.

During construction, no lane closures will be permitted between State Road 100 and Gas Line Road from 6:30 a.m. to 8:30 a.m. and 4:30 p.m. to 8:30 p.m. Monday through Friday. No lane closures will be permitted between Gas Line Road and State Road 16 from 6:30 a.m. to 8:30 a.m. Monday through Friday. Drivers should use caution in active construction zones and watch for changes in the speed limit throughout the project area.

August means back to school! Kids walk, bike and wait for the school bus in the early morning hours. Motorists should always obey school speed zone limits and never drive distracted. Help keep our kids safe! Learn more about Florida's statewide initiative to reduce transportation-related crashes by visiting TargetZeroFL.com.

Drivers seeking real-time traffic alerts are encouraged to visit www.FL511.com or download the FL511 app prior to their journey.

The Florida Department of Transportation's mission is to provide a safe transportation system that ensures the mobility of people and goods, enhances economic prosperity, and preserves the quality of the state's environment and communities. The department is committed to building a transportation system that not only fits the current needs of Florida's residents and visitors, but also enhances mobility throughout the state to accommodate its consistent and rapid growth. The unique nature of the Sunshine State and its year-round warm climate provides numerous opportunities to achieve the department's mission through multiple transportation modes including highways/streets, air, rail, sea, spaceports, transit, and the ever-expanding deployment of bicycle & pedestrian facilities.
