Resurfacing of Lane Avenue to Begin Next Week

JACKSONVILLE, Fla. – Construction is scheduled to begin next week on 2.6 miles of Lane Avenue (State Road 103) from Wilson Boulevard to Normandy Boulevard.

The project includes removing and replacing the top layers of asphalt, concrete sidewalks, new pavement striping, new signage, and guardrail upgrades and traffic signal upgrades. This project also includes enhanced lighting and pedestrian signal upgrades at Wilson Boulevard, Wiley Road, San Juan Avenue, Hyde Grove Avenue, Manotak Avenue, Park Street, Lenox Avenue and Normandy Boulevard. In partnership with JEA, there will also be utility upgrades installed.

Traffic will be maintained in accordance with FDOT design standards throughout the project. Drivers can expect overnight, single-lane closures and daytime, single-lane closures during periods of low traffic volume. One lane in each direction will remain open at all times.

Anderson Columbia, Co., Inc. is expected to complete this \$7.9 million improvement project in spring 2023, weather and unforeseen circumstances permitting.

Safe travels during the holidays will help ensure a happy holiday for you and your loved ones. Be sure to buckle up, don't drive distracted, and designate a sober driver.

Stay informed about lane closures and roadwork in your area by following FDOT District 2 at [@MyFDOT_NEFL](https://twitter.com/MyFDOT_NEFL) on Twitter, at [MyFDOTNEFL](https://www.facebook.com/MyFDOTNEFL) on Facebook or by visiting nflroads.com.

The Florida Department of Transportation's mission is to provide a safe transportation system that ensures the mobility of people and goods, enhances economic prosperity, and preserves the quality of the state's environment and communities. The department is committed to building a transportation system that not only fits the current needs of Florida's residents and visitors, but also enhances mobility throughout the state to accommodate its consistent and rapid growth. The unique nature of the Sunshine State and its year-round warm climate provides numerous opportunities to achieve the department's mission through multiple transportation modes including highways/streets, air, rail, sea, spaceports, transit, and the ever-expanding deployment of bicycle & pedestrian facilities.
