Ricker Road at 103rd Street Temporarily Closed for Intersection Upgrades

JACKSONVILLE, Fla. – Ricker Road at the 103rd Street intersection is temporarily closed for work related to the 103rd Street intersection improvements project. Northbound Ricker Road traffic will detour via Falcon Street and Hillman Drive.

The 103rd Street intersection improvements at Ricker Road, Hillman Drive/McManus Drive, La Ventura Drive East and Redstone Drive include new traffic signal mast arms, traffic signal upgrades, new streetlights, crosswalk re-striping and the installation of LED countdown pedestrian signals.

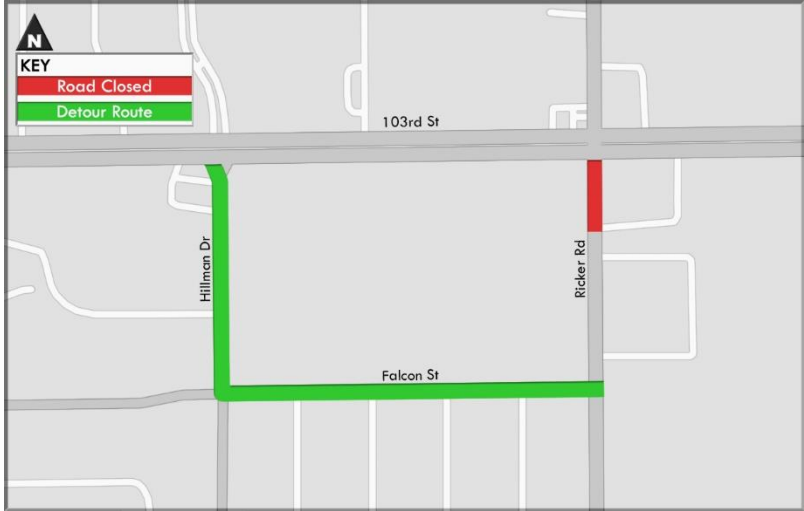

The Ricker Road intersection improvements also include widening of the road for the installation of dedicated left turn lanes at the north and south sides of the intersection. To facilitate construction of the extra lane on the south side, Ricker Road will be temporarily closed at the intersection through December.

In addition to the temporary detour, drivers should expect evening lane closures on 103rd Street in the vicinity of the intersections throughout the duration of the project. No closures will be scheduled during peak driving times or on holidays or special events.

SICE, Inc. of Jacksonville is scheduled to complete the \$2.8 million project, weather permitting, in spring 2023.

Stay informed about lane closures and roadwork in your area by following FDOT District 2 at [@MyFDOT_NEFL](https://twitter.com/MyFDOT_NEFL) on Twitter, at [MyFDOTNEFL](https://www.facebook.com/MyFDOTNEFL) on Facebook or by visiting nflroads.com.

October is National Pedestrian Safety Month, and all roadway users share the responsibility for keeping everyone safe. Pedestrians should always use designated crosswalks and avoid distractions like using cell phones while walking. Motorists must yield to pedestrians in crosswalks and watch for pedestrians at all times. Together, we can reach the goal of ZERO pedestrian fatalities on Florida's roads.
