S.R. A1A Intersection Improvements at Mary Street to Begin July 11

ST. AUGUSTINE, Fla. – The Florida Department of Transportation is scheduled to begin intersection improvement work on S.R. A1A at Mary Street starting Monday, July 11, weather and unforeseen circumstances permitting.

The improvements include adding a southbound left turn lane from S.R. A1A to Mary Street and a northbound left turn lane from S.R. A1A to Riverside Boulevard. Other incidental construction work includes roadway milling and resurfacing, base work, shoulder treatment, minor drainage improvements, highway signage and sidewalk and bicycle path work.

To safely complete the roadway construction work, periodic daytime and nighttime lane closures will be necessary Monday through Sunday.

P & S Paving Inc. is expected to complete the \$1.2 million improvements by early 2023. Construction completion times are estimates and subject to change based on weather and unforeseen circumstances.

FDOT asks motorists to always obey the posted speed limit, do not drive distracted, never drive impaired and always buckle up! Let's get everyone home. Learn more about Florida's statewide initiative to reduce transportation-related crashes by visiting TargetZeroFL.com.

The Florida Department of Transportation's mission is to provide a safe transportation system that ensures the mobility of people and goods, enhances economic prosperity, and preserves the quality of the state's environment and communities. The department is committed to building a transportation system that not only fits the current needs of Florida's residents and visitors, but also enhances mobility throughout the state to accommodate its consistent and rapid growth. The unique nature of the Sunshine State and its year-round warm climate provides numerous opportunities to achieve the department's mission through multiple transportation modes including highways/streets, air, rail, sea, spaceports, transit, and the ever-expanding deployment of bicycle & pedestrian facilities.
