### **Southbound Acosta Bridge to I-95 Ramp, Hendricks Avenue under I-95 to be Temporarily Closed for Demolition and Repair April 1 through April 10**

*Repairs to Southbound I-95 Collector Ramp Underway*

**JACKSONVILLE, Fla.** – The Southbound ramp to I-95 from the Acosta Bridge will temporarily be closed, continuously beginning Friday, April 1 at 8 p.m. until crews complete bridge repair work on the I-95 collector/distributor ramp. The temporary closure is necessary for crews to safely remove damaged bridge components and replace beams and portions of the bridge deck.

In addition, Hendricks Avenue under I-95 will close temporarily Friday, April 1 at 8 p.m. as crews begin demolition and reconstruction of portions of the southbound I-95 overpass. The temporary closure of Hendricks Avenue is expected to be in place until 5 a.m. April 10, weather and unforeseen circumstances permitting.

During the closure, motorists, bicyclists, and pedestrians will be briefly detoured to Kings Avenue and continue to their destination. Signage will alert the public and direct travelers through the detour.

FDOT determined repairs are necessary after inspecting damage sustained when an over-height vehicle struck the bridge earlier this month. Repairs will consist of removing and replacing two support beams, making minor repairs to three additional support beams and replacing a portion of the bridge deck.

Traffic will be maintained in accordance with FDOT standards. Drivers on the I-95 south collector/distributor will encounter continuous, multiple-lane closures throughout the duration of the repairs.

March is bicycle safety month. When cycling always wear a helmet and ride in the same direction of traffic on the street. Obey all traffic signs, signals, and markings.

Motorists seeking real-time traffic alerts are encouraged to visit [www.FL511.com](http://www.FL511.com) or download the FL511 app prior to their journey.

The Florida Department of Transportation's mission is to provide a safe transportation system that ensures the mobility of people and goods, enhances economic prosperity, and preserves the quality of the state's environment and communities. The department is committed to building a transportation system that not only fits the current needs of Florida's residents and visitors, but also enhances mobility throughout the state to accommodate its consistent and rapid growth. The unique nature of the Sunshine State and its year-round warm climate provides numerous opportunities to achieve the department's mission through multiple transportation modes including highways/streets, air, rail, sea, spaceports, transit, and the ever-expanding deployment of bicycle & pedestrian facilities.
