### St. Johns Avenue Detoured for JEA Sanitary Sewer Repair

**JACKSONVILLE, Fla.** – St. Johns Avenue (State Road 211) between Riverside Avenue and Canterbury Street is currently closed to allow JEA crews to make critical sanitary sewer repairs in the area.

As shown in the map below, drivers will be detoured around the closure via Riverside Avenue and Canterbury Street.

This detour is expected to last three weeks, weather and schedule permitting, while JEA crews complete the sewer repairs. This work is unrelated to FDOT's ongoing State Road 211 Intersection Improvement Project. You can find out more about that project here: [www.nflroads.com/SR211](http://www.nflroads.com/SR211).

January is Move Over month in Florida. FDOT reminds motorists to move over for first responders or service vehicles displaying any visible signals while stopped on the roadside, including Road Rangers, sanitation vehicles and tow trucks.

Stay informed about lane closures in your area by following FDOT District 2 at [@MyFDOT\\_NEFL](https://twitter.com/MyFDOT_NEFL) on Twitter, at [MyFDOTNEFL](https://www.facebook.com/MyFDOTNEFL) on Facebook or visiting [nflroads.com](http://nflroads.com).

The Florida Department of Transportation's mission is to provide a safe transportation system that ensures the mobility of people and goods, enhances economic prosperity, and preserves the quality of the state's environment and communities. The department is committed to building a transportation system that not only fits the current needs of Florida's residents and visitors, but also enhances mobility throughout the state to accommodate its consistent and rapid growth. The unique nature of the Sunshine State and its year-round warm climate provides numerous opportunities to achieve the department's mission through multiple transportation modes including highways/streets, air, rail, sea, spaceports, transit, and the ever-expanding deployment of bicycle & pedestrian facilities.
