Traffic Advisory: Lane Closures and Detours Planned December 14 - 18 for Railroad Crossing Improvements

DUVAL COUNTY, Fla. – Drivers should expect lane closures, flagging operations and detours in Duval County as part of the Statewide Traffic and Railroad Initiative Using Dynamic Envelopes initiative, officially known as “Operation STRIDE.”

Through [Operation STRIDE](#), the Florida Department of Transportation (FDOT) is implementing rail crossing safety measures on state roadways with the goal of eliminating crashes at state road rail crossings. The work includes installation of Rail Dynamic Envelopes (conspicuous pavement markings), enhanced signage and rail safety education.

There will be five projects from Monday, December 14 to Friday, December 18, pending any weather delays at the following locations:

Duval County

- U.S. 90 (State Road 10) in Jacksonville (east of West Beltway 295) – Detour
- Post Street (State Road 228) in Jacksonville (east of McDuff Avenue) – Lane Closure
- McDuff Avenue (State Road 129) in Jacksonville (south of State Road 228) – Lane Closure
- Beaver Street West/U.S. 90 (State Road 10) in Jacksonville (east of Ellis Road) – Detour
- Edgewood Avenue (State Road 111) in Jacksonville (south of U.S. 90) - Lane Closure

Work is expected to take place from 8 p.m. to 6 a.m. and once construction is completed at one crossing, crews will move to the next crossing and begin work. The lane closures will be removed early if work is completed ahead of schedule or could be in place longer due to weather or unforeseen circumstances.

Stay informed about lane closures and roadwork in your area by following FDOT District 2 at [@MyFDOT_NEFL](#) on Twitter or at [MyFDOTNEFL](#) on Facebook.

The Florida Department of Transportation's mission is to provide a safe transportation system that ensures the mobility of people and goods, enhances economic prosperity, and preserves the quality of the state's environment and communities. The department is committed to building a transportation system that not only fits the current needs of Florida's residents and visitors, but also enhances mobility throughout the state to accommodate its consistent and rapid growth. The unique nature of the Sunshine State and its year-round warm climate provides numerous opportunities to achieve the department's mission through multiple transportation modes including highways/streets, air, rail, sea, spaceports, transit, and the ever-expanding deployment of bicycle & pedestrian facilities.
