Travel Advisory: State Road 200 Lane Closure Schedule

Yulee, Fla. – This advisory is to inform community leaders and interested parties about upcoming, scheduled lane closures, traffic shifts and other construction activity on State Road 200/A1A. For a complete list of scheduled lane closures in northeast Florida, interested parties may visit: www.NFLRoads.com/TrafficReport.

Drivers can also setup real-time traffic alerts from FL511, a free service offered by the Florida Department of Transportation (FDOT). Motorists can visit www.FL511.com or call #511 for this up-to-date information.

The Florida Department of Transportation has permitted multiple lane closures as part of the State Road 200/A1A (S.R. 200) improvement projects. Below are several planned lane closures, weather permitting, planned for September 7 through September 12. Certain activities may require unexpected lane closures for the safety of both drivers and construction workers.

Notable: The westbound lanes of S.R. 200 are expected to be shifted in the coming weeks. In order to safely conduct the shift and to update the pavement markings, the contractor has requested to work during the daytime hours and close one lane of westbound traffic along portions of the roadway where the shift will take place. The new traffic pattern will continue to permit two lanes of travel along westbound S.R. 200. Eastbound S.R. 200 will not be impacted by this shift

A traffic advisory will be distributed once the contractor has been authorized to switch traffic.

Daytime lane closures:

Interstate 95: Lane closures are not expected at this time.

State Road 200:

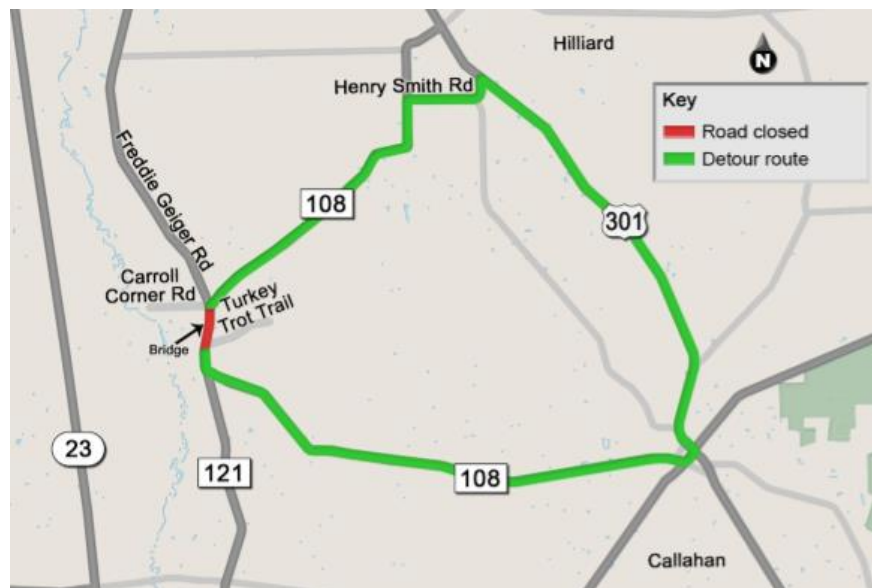

- The westbound and eastbound left lanes of S.R. 200 from Chester Road to Lofton Creek are expected to be closed Saturday, September 14 from 7 a.m. until 5 p.m.

Nighttime lane closures: Lane closures are not expected at this time.

Nassau County Advisory: While unrelated to the S.R. 200 corridor, interested parties may appreciate the following information:

The Florida Department of Transportation has temporarily closed a portion of County Road 121/Baldwin and Saint George Road between Turkey Trot Trail and Carroll Corner Road.

The closure will be in place until rehabilitation work is completed on a bridge culvert damaged from erosion. Northbound and southbound drivers on County Road 121 will detour to U.S. 301 via County Road 108 and Henry Smith Road. More information about this project can be found by visiting www.NFLRoads.com.

Detour map of Nassau County bridge repair (work performed by FDOT)

Throughout construction, drivers are encouraged to plan ahead, use caution and follow the speed limit. Construction is a temporary inconvenience toward a more permanent transportation solution.
