UPDATE: New Traffic Pattern on Eastbound Butler Boulevard Ramp to San Pablo Road Postponed Until June 25

JACKSONVILLE, Fla. – Due to inclement weather, the traffic shift on the ramp from eastbound Butler Boulevard to San Pablo Road originally scheduled for Tuesday, June 22 is now expected to be implemented Friday, June 25, weather and unforeseen circumstances permitting. Traffic on the ramp from eastbound Butler Boulevard (State Road 202) to San Pablo Road will be shifted to the newly-constructed travel lanes just south of the existing lanes.

FDOT hired Watson Civil Construction to complete this \$12 million project, which includes construction of a diverging diamond interchange at San Pablo Road and Butler Boulevard, in spring of 2022, weather and unforeseen circumstances permitting.

Stay informed about lane closures and roadwork in your area by following FDOT District 2 at @MyFDOT_NEFL on Twitter or at MyFDOTNEFL on Facebook.

The Florida Department of Transportation's mission is to provide a safe transportation system that ensures the mobility of people and goods, enhances economic prosperity, and preserves the quality of the state's environment and communities. The department is committed to building a transportation system that not only fits the current needs of Florida's residents and visitors, but also enhances mobility throughout the state to accommodate its consistent and rapid growth. The unique nature of the Sunshine State and its year-round warm climate provides numerous opportunities to achieve the department's mission through multiple transportation modes including highways/streets, air, rail, sea, spaceports, transit, and the ever-expanding deployment of bicycle & pedestrian facilities.
