

# State Road 9B Extension into St. Johns County

The Florida Department of Transportation (FDOT) will start construction of the third phase of State Road 9B from I-95 to County Road 2209 (St. Johns Parkway) in late August. The 2.3-mile extension into St. Johns County is the final segment of State Road 9B that began in 2010 with the I-295 to U.S. 1 segment. The second segment from U.S. 1 to I-95 began in April, 2013 and is expected to be complete in summer 2016. The extension from I-95 to County Road 2209 (St. Johns Parkway) is scheduled to be complete in mid-2018. Due to the close proximity of the current State Road 9B and I-95 interchange, and the distance between its ramps, an interchange at State Road 9B and Race Track Road is not possible. The construction of Peyton Parkway, a 1-mile connector road from Race Track Road to State Road 9B, will provide direct access between Race Track Road and State Road 9B.

## This project includes:

- Constructing a new four-lane divided highway connecting I-95 to County Road 2209 (St. Johns Parkway)
- Construction of Peyton Parkway (Race Track Connector) which will provide direct access between State Road 9B and Race Track Road
- A new interchange at County Road 2209 (St. Johns Parkway)
- Bridges/overpasses over Race Track Road, Peyton Parkway, Durbin Creek and Russell Sampson Road
- Construction of five retention ponds

## Traffic impacts:

### I-95:

- Lane closures allowed weeknights from 8 p.m. to 5:30 a.m.
- No lane closures allowed on weekends or holidays
- Weekday detours allowed from 12-5 a.m.

### Russell Sampson Road:

- No lane closures allowed weekdays between 7-9 a.m. and 2-3:30 p.m. during the school year (Wednesdays from 1-2:30 p.m.)
- Nighttime detours allowed from 9 p.m. to 6 a.m.

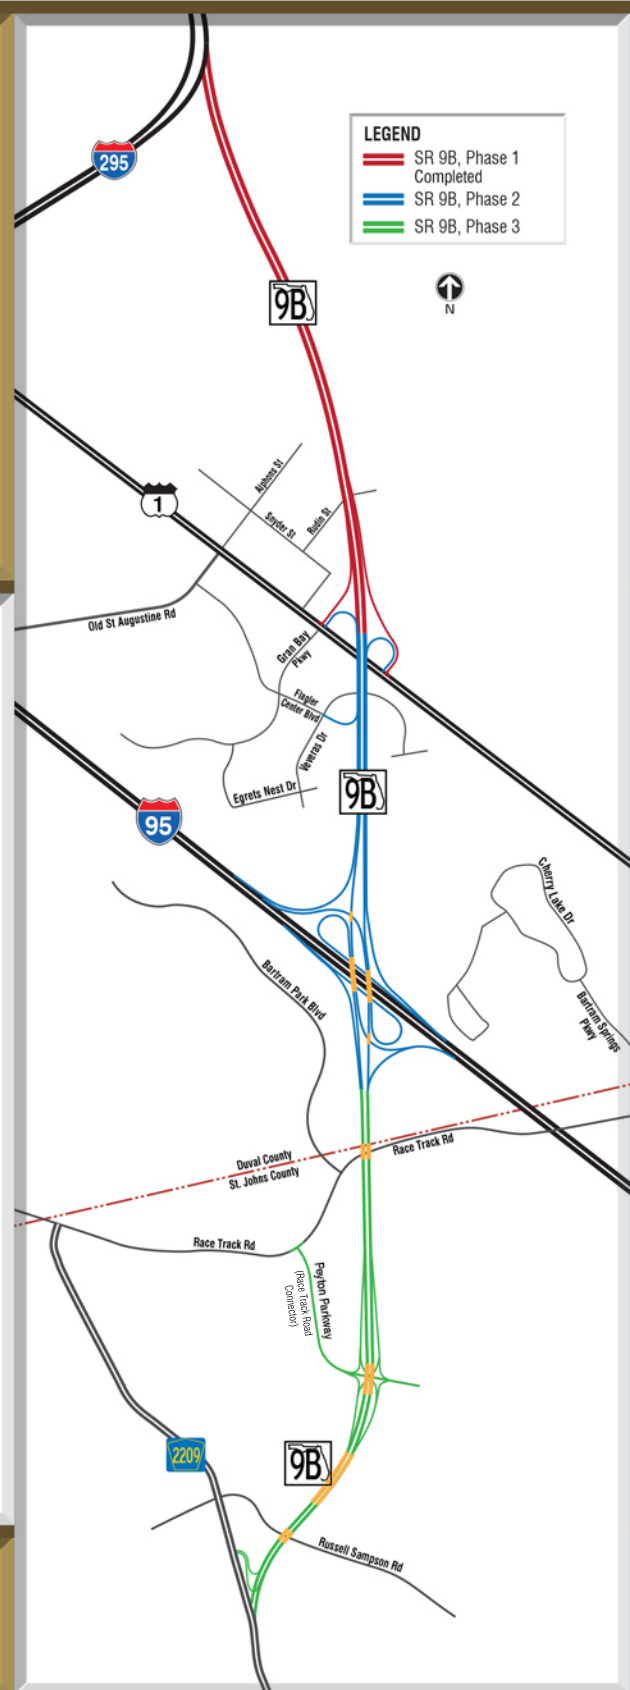

### Race Track Road (east and west of Bartram Park Boulevard):

- No lane closures allowed between 7-11 a.m. and 4-9 p.m.
- Nighttime detours allowed from 9 p.m. to 6 a.m.
- Speeding fines are doubled when workers are present.

Start Date: August 2015 Completion: Mid-2018
