

Estimated Project Cost

Right of Way—\$ 1.3 Million
Construction—\$ 7.5 Million

Schedule

Right of Way—2019
Construction—2020

GET INVOLVED!

The FDOT remains committed to working with all project stakeholders. No final decision will be made until we hear your comments. There are many ways to provide comments:

- ◆ Make a verbal statement during the public comment period at the hearing.
- ◆ Complete a written comment form and drop it in the comment box provided at the Public Hearing.
- ◆ Mail or email your comments to the FDOT Project Manager, Michael Brock at the address shown below.

All comments received postmarked **on or before April 30, 2018**, will be included in the Public Hearing record. Public participation is sought without regard to race, color, religion, sex, age, national origin, disability or family status.

Access Management Public Hearing

Thursday, April 19, 2018

Open House

4:30—6:30 PM

6:30 PM—Public Comment Period

Hillcrest Baptist Church

7673 Collins Road
Jacksonville, Florida

The Florida Department of Transportation (FDOT) welcomes you to the Public Hearing for the proposed improvements to I-295 Collins/Blanding at Collins Road Interchange project in Duval County, Florida.

Project Purpose: The purpose of this project is to reduce traffic congestion at and around the nearby intersections of Collins Road and the I-295 Collector Distributor by widening ramps, extending turn lanes, and making interchange improvements. This project will improve the flow of traffic along Collins Road at the I-295 Collector Distributor and surrounding intersection, while taking into account the increase in traffic from the recent development in the area.

Proposed Project: The proposed project will construct a jug-handle intersection at the Collins Road and I-295 Collector Distributor northbound on and off ramps, which will remove the eastbound left turn lane from the existing on and off ramps, to a new proposed signal east of the existing signal. In addition, a westbound through lane will be constructed starting west of the northbound on and off ramps and ending as a second left turn lane at the Collins Road and Rampart Road intersection. The I-295 Collector distributor southbound off-ramp at Collins Road will also be widened to include two left turn lanes, two through lanes, and three signalized right turn lanes. This proposed project includes pond modifications, additional right-of way and access management changes.

Access Management changes are proposed as part of this project
