

Aluminum ADA
detour access ramp

This aerial map shows a waterfront area with a proposed pedestrian detour. A red line with orange dots indicates the detour route, starting from the left, running parallel to the water, and then curving right towards a building. A circular inset provides a close-up view of the 'Aluminum ADA detour access ramp' at the building. A north arrow is in the top right corner. A key in the top right identifies the red line as the 'Pedestrian detour'. A disclaimer at the bottom right states '*Pedestrian detours subject to change'.
