

**ANNOUNCEMENT OF
LOCATION AND DESIGN CONCEPT ACCEPTANCE**

**State Road 16
From International Golf Parkway to I-95 (SR 9)
ST. JOHNS COUNTY, FLORIDA**

Financial Management #210447-5
Efficient Transportation Decision Making (ETDM) #14535

On 1/26/2026, the Florida Department of Transportation (FDOT), pursuant to 23 U.S.C. § 327 and a Memorandum of Understanding dated May 26, 2022, and executed by FHWA and FDOT, granted Location and Design Concept Acceptance for State Road 16 from International Golf Parkway (IGP) to I-95. The Project is divided into two segments: Segment 1: IGP to the St. Augustine Outlet Mall (western entrance), and Segment 2: St. Augustine Outlet Mall to I-95.

The project features a four-lane divided high-speed arterial with curb and gutter in the median and flush outside shoulders. The roadway consists of two 12-foot-wide lanes in each direction with a four-foot-wide paved inside shoulder and a 10-foot-wide outside should (five-foot paved). The opposing lanes are separated by a 33.5-foot-wide raised grassed median (including the inside four-foot paved shoulders). A 12-foot-wide shared use path is proposed 15 feet from the edge of the travel lanes on both sides of the road. Improvements include the replacement of the Turnbull Creek Bridge. Segment 2 is already four lanes, and no additional capacity is proposed within this segment. The shared use path from Segment 1 will be extended into Segment 2 and will tie into the existing sidewalk.

The existing right-of-way is approximately 200 feet, and no additional right of way is required for the new roadway. Right-of-way for drainage improvements or ponds will be required.

This project will now proceed to the next phase of development. For more information please contact:
